Colour and type. McLaren papaya on warm graphite.

The site shares Edudojo's design language: warm paper, one sans, hairlines, dot motion. The colours are its own, so the person and the company stay distinct. Every colour on these pages is read from `app/field.css`, and every ratio is measured.

Light mode

--paper `#F7F6F3`
Page background

--paper-raised `#FFFFFF`
The one raised object in a view

--sage `#F1EDE7`
Warm wash: top of the hero, field behind a lead glyph

--ink `#1B1A18`
Text and headings

--ink-2 `#5E5A55`
Muted text, a heading's second tone, nav links

--rule `#E3E0DA`
1px hairlines between rows and sections

--forest `#1F1E1C`
The anthracite filled button

--on-forest `#FAF8F5`
Text on the filled button

--leaf `#FF8000`
McLaren papaya. A signal: dots, last step, focus. Never small text

--leaf-ink `#B04A00`
Orange text, link hover

--clay `#B42335`
Crimson. Corrections and warnings only

	Pair	Ratio	Use	WCAG
Aa	--ink on --paper	16.09	All text	passes 4.5:1
Aa	--ink-2 on --paper	6.33	Muted text	passes 4.5:1
Aa	--ink on --sage	14.91	Text on the wash	passes 4.5:1
Aa	--leaf-ink on --paper	5.08	Orange text, links	passes 4.5:1
Aa	--clay on --paper	6.01	Warnings	passes 4.5:1
Aa	--on-forest on --forest	15.71	Filled button	passes 4.5:1
Aa	--leaf on --paper	2.33	Papaya as a mark	dark grounds only
Aa	--rule on --paper	1.22	Hairline (decorative)	decorative

Dark mode. Same roles, warm graphite paper.

--paper `#151413`
Page background

--paper-raised `#1C1B19`
The one raised object in a view

--sage `#25211D`
Warm wash: top of the hero, field behind a lead glyph

--ink `#E0DDD8`
Text and headings

--ink-2 `#ADA7A0`
Muted text, a heading's second tone, nav links

--rule `#2C2A27`
1px hairlines between rows and sections

--forest `#E0DDD8`
The anthracite filled button

--on-forest `#151413`
Text on the filled button

--leaf `#FF8000`
McLaren papaya. A signal: dots, last step, focus. Never small text

--leaf-ink `#FF9F45`
Orange text, link hover

--clay `#F07178`
Crimson. Corrections and warnings only

--color-text-reading `#C2BDB6`
Paragraphs and lists in long text. 9.9:1

	Pair	Ratio	Use	WCAG
Aa	--ink on --paper	13.58	All text	passes 4.5:1
Aa	--ink-2 on --paper	7.72	Muted text	passes 4.5:1
Aa	--ink on --sage	11.80	Text on the wash	passes 4.5:1
Aa	--leaf-ink on --paper	9.02	Orange text, links	passes 4.5:1
Aa	--clay on --paper	6.43	Warnings	passes 4.5:1
Aa	--on-forest on --forest	13.58	Filled button	passes 4.5:1
Aa	--leaf on --paper	7.31	Papaya as a mark	passes 3:1
Aa	--rule on --paper	1.29	Hairline (decorative)	decorative

• Reading in dark mode

A softer dark theme. About 10:1 to 14:1, not 16:1.

Near-white text on near-black glows at the edges of each letter, and the eye tires. Every dark page now sits on slightly lifted paper with dimmer ink. Long text (essay and Notes paragraphs) drops one more step to reading ink. Headings and bold text keep the ink.

Before

What measuring takes

Your list will differ. That is the point. There is no single right answer for everyone. There is one right answer for each use case, and you find it by measuring your own work.

Real tasks. Use work from your own history, not generic puzzles.

```
paper #121110
body #D2CEC8 · 12.0:1
ink #EEECE8 · 16.0:1
```

Now

What measuring takes

Your list will differ. That is the point. There is no single right answer for everyone. There is one right answer for each use case, and you find it by measuring your own work.

Real tasks. Use work from your own history, not generic puzzles.

```
paper #151413
body #C2BDB6 · 9.9:1
ink #E0DDD8 · 13.6:1
```

- Both stay far above WCAG AAA (7:1) for body text.
- Keep dark text between about 10:1 and 14:1. Do not go back to pure white.
- Light mode does not change. Dark ink on warm paper does not glow.
- Change the value in the token block only, never in a component.

Three faces. Each has one job.

Instrument Sans

Headings, text and UI. Headings 500 with −0.035em to −0.04em tracking. Body 400; 500 to 600 for short labels only.

I build tools for how we learn to think.

Literata

A person's writing: article and Notes prose, essay titles, quotes.

One idea on learning, AI, and being human. *Delivered Sunday evening*.

IBM Plex Mono

Real data only: dates, versions, steps, numerals. A unit next to a number stays in sans.

Scale on the site

Role	Size	Weight · tracking · leading	Where
Hero h1	`up to 5.25rem`	500 · −0.04em · 1.02	Homepage headline
Section h2	`clamp(2.1rem, 3.6vw, 3.4rem)`	500 · −0.035em · 1.06	Section headings
Article title	`clamp(2rem, 4.4vw, 3.65rem)`	550 · −0.048em · 1.13	Journal essays
Essay h2	`clamp(1.45rem, 2.4vw, 1.9rem)`	550 · −0.035em · 1.4	Inside an essay
Reading body	`1.0625rem (1.25rem large)`	400 · 0 · 1.9	Essay paragraphs
Copy	`16px`	400 · 0 · 1.8	Intros, max 560px
Label	`13px`	500 · 0 · 1.6	Field labels, kickers

Rules

- An `<em>` in an h1 or h2 is the second tone: upright, in `--ink-2`, never italic.
- Papaya is a signal: dots, the last step, focus. Orange text uses `--leaf-ink`.
- Separate with 1px hairlines and space, not boxes. One raised object per view.
- Do not bring back Instrument Serif or Manrope.
